

# EXTERIOR COLOUR guidebook

**NEROLAC  
PAINT+**

For over 100 years, Nerolac has been touching lives, in ways you wouldn't have imagined. We've made sure to be present in lives of our customers in more ways than one. From connecting people, protecting and maintaining mighty bridges and dams, adding sheen and beauty to India's first modern day car, the iconic Maruti Suzuki 800, to ushering in an era of healthy home paints with low VOC and no heavy metals, bringing beauty and durability to not just walls but also vehicles, homes appliances, furniture and more.

Through the years, we've been constantly innovating to stay ahead of the times. With our innovative product range, futuristic technology and services that have engaged customers and stakeholders alike. Our brand philosophy Paint+ is a testament to our commitment of providing world-class products that do more. The "+" in the name represents our promise of offering products and services that go beyond and deliver consumer benefits. This philosophy guides our product innovations.

With our legacy of 100 years and our Japanese expertise, we are confident of raising the bar in excelling and exceeding our customer's expectations.

## Your guide to colour combinations

### Monochromatic

Choose any shade, tint or tone of one colour, for example yellow-greens, to create a single colour palette based on the lighter (tint) or darker (shade). One can also add whites and greys for extra visual interest.

### Triadic

Use three colours that are equidistant on the colour wheel, such as oranges, greens and violets. For best results, you can use one dominant colour and use the other two as subtle complementing colours.

### Complementary

Choose two colours that lie opposite each other on the colour wheel - such as purple and yellows - as the main colours in your colour palette. The result could be a vivid combination, full of energy, depending on the strength of colour chosen.

### Adjacent

Mix either a primary or secondary colour with one or two tertiary colours. Choose two or three colours lying next to each other on the colour wheel, within a 90° angle. For example, combine blues with blue-greens and greens.
